

The quality project's aim has been to create and improve a system that embraces skills and experiences gained in MECHINNO. The Management responsibility is the continuous improvement of this system. Our scope is to reach the expectations of MECHINNO' stakeholders.

The strategic and operative choices are based on the following principles:

- Satisfying stakeholder expectations and requirements in terms of
  - o CONFORMITY: the work must be done following the client's requirement since the first delivery.
  - o ACCURACY: MECHINNO always delivers projects on time and compliant despite short term contracts
  - o FLEXIBILITY: our clients finds in MECHINNO a partner open to dialogue, in order to find solutions even where others does not seeing them
  - o DATA SECURITY AND PRIVACY: the Company is willing to guarantee the access to information and data exclusively to the resources and the process defined and preventively authorized
  - o CONTNUOS IMPROVEMENT: the projects and the quality system must be continuously improved, especially throughout the evaluation of previous experiences.
- Operating in compliance with national and international laws, regulations and provisions, seeking continuous improvement in company performance
- Assuring to the Personnel a safe, healthy and motivating work environment that takes in count the contribution of each individual;
- Assuring to the Suppliers a common path that aim to a continuous improvement of a long term service quality;
- Ensuring to the Community a behavior always responsible about administrative, environmental and working choices.

The Management believes that, the continuous application of what has been defined in the Quality System complies with the standard UNI EN ISO9001:2015, in agreement with the respect of the Client's contract requirements, are together the most appropriate tool for achieving and maintaining the aforementioned objectives.

Therefore, the Management provides systematic checks of the requirements satisfaction and promote actions to continuously increase enhancement of management system.

Moreover, the Management ensures periodically inspection of the Quality Policy, to ascertain its communicated, acknowledged and implemented adequacy within the organization. This is available to all interested parties through its released on the company website: [www.mechinno.com](http://www.mechinno.com).
